Mistress Roxana

Freaky Friday Fudgepatty

Compiled by FreshFreak4u@gmail.com

coprophilia

cop·ro·phil·ia - marked interest in excrement

especially : the use of feces or filth for sexual excitement

This is more about my story than Mistress Roxana. I think I may be a serial fetishist. I crave extreme sexual fetishes. Extreme. Humiliating. Degrading.

Absolutely no minors. I was abducted at 5. When I escaped, I took another kid with me and ran to some woman's open arms. She saved us. Then at 11. I fought that fucker, and he ran away on foot before the cops came. The first person who came to my aid was a woman with open arms. She chased him in her car, ran him over, and we kept driving. I laid my head in her lap and fell asleep as she drove us back to my mom. That night, she moved into our home and became mom, too.

I found Mistress Roxana in the Fetish Times classified under the "sissy" section. She was actually seeking a fetish photographer [this was 1984].

This is the collection of "test screen" photos.

I am **The Voyeuristic Observer:**

Coprophilia with a voyeuristic or vicarious focus.

I am an individual who achieves sexual gratification exclusively by watching, listening to, or smelling others engage in defecation or **coprophagia**.

My arousal is rooted in the visual, auditory, or psychological taboo of witnessing the act, rather than physically participating, touching, or consuming Her Fudge, hence the photo collection and this zine for all to enjoy.

Mistress v is **The Dominant Active Giver:**

Mistress is active in the SM scene and specializes in coprophilia. She is an individual who derives Her sexual pleasure from defecating onto another person or providing Her feces for another person to consume.

She is also proficient and experience with psychological concepts of power, control, or humiliation of submissives. For Her, the euphoria comes from the act of giving, imposing, or sharing the taboo substance with a partner who is acting as the recipient.

Her Gimp **The Submissive Receptive Consumer:**

Her Gimp is an individual who experiences sexual arousal by being defecated on and actively consuming the feces of another person. Her Gimp specifically craves a dominate female figure.

Her Gimp's role is frequently associated with submission, degradation, or ultimate vulnerability within a sexual dynamic. The psychological reinforcement here often involves a complete shedding of normal societal boundaries and hygiene taboos to achieve a state of intense sensory compliance or pleasure. Have fun, FreshFreak4U.

Today was lunch with my sister. She likes Mexican food, so we went to her favorite place in the city. Generous portions means we eat like the Queens we are.Plus the owner has a crush on my sister, so we take full advantage of his desires.

Today, I had two enchilladas, two tacos, and an extra helping of beans and rice on the side

along with three glasses of iced tea.Fortunately for slave, I made it home before losing it in the car. That fucker does not realize how hard I work to make sure he has a plate of solid feces ready for him every dam day. Sometimes its hard to tell if he really wants it or is just pretending.

slave
likes it when its warm. He said it goes down easier. I suppose that helps when everything I eat looks yummy and tastey, but when he gets it, its pretty unrecognizable.

Fresh Mistress Pie with a hot piss chaser. I am suprised how clean slave keeps the house just so he can eat my shit and drink my piss.

Unfortunately for him, I can not allow a filthy groveling toilet to roam un-attended or un-restricted. Its why he's in that cage when I'm not home. The big plus is he's so grateful to be out of the cage, he spends his energy serving me and careing for my home.

For a short time, I allowed him to feed himself, but he was very sloppy and didn't finish the whole meal so I started feeding him. Honestly, I don't mind at all now. It's the only way I can ensure he consumes every drop of My Nectar and every chip of My Fudge.

Sometimes, I go out of town for a couple days and leave the slave in the cage. When I do,

my sister will drop in and feed the bitch. On those days, my sister always stops by the Weinerschnitzel across town for three chilli dogs - extra cheese, extra chilli - and chugs a whole Oreo shake from Mickey Deez to wash it all down with.

Once a month I bring out the sleeper sac. My slave gets his reward, I man after all I do need to keep him happy somehow, and once a month handjob is much easier than almost anything else I can do.

It crawls into it, then I secure the sac. He knows I need to have some interest in making him happy, and after about 2 hours of him sqirming, I'm ready to sit on the hood and grind while I pull his pud.

After about 3 minutes, he's done. However, after only 3 minutes, I'm so horny it could take another hour of humping this hood for me to finish.
